Papers

Mathematics

- A Parametric Method of Synchronization Design for Chaotic Systems *via* Dynamic Observers WANG Yan-liang,
WANG Guo-sheng(1843)

Earth Science

- Characteristics of Boundaries and Discussions on the Issue of the Belongingness of Segment Four of Yingcheng Goup in Xujiaweizi Rift HU Yu-shuang, LIU Wei-wei,
HAN Yan-yun, *et al.* (1838)

Biology Technology

- Physicochemical Properties and Anti-tumor Activities *in vitro* of *Angelica sinensis* Polysaccharide APS-bII
..... CHEN Xi, CAO Wei, SUN Yang, *et al.* (1843)

Medicine

- The Effect of All-trans Retinoic Acid in the Proliferation of Human Ovarian Cancer Cells H08910 XUE Xin,
DENG Feng, LI Cun-bao(1852)

Petroleum Industry Technology

- Productivity Analysis of Fractured Wells in the Low Permeability Naturally Fractured Gas Reservoir ZHANG Shao-hui,
YIN Hong-jun, LÜ Hang, *et al.* (1851)
- The Thermal Simulation of Restoration Segment of Buried Hot Oil Pipeline during the Periods of Shut Down and Restart
..... KANG Kai, LIU Yang, LIU Xiao-yan, *et al.* (1857)

Instrumental Technology

- Super-resolution Reconstruction and Its Application in CT Based Non-destructive Detection AI Xin,
ZHAO Xin-bo, YU Qing-chao, *et al.* (1861)

Power Technology

- The Diagnosis and Testing System of Hardware Malfunction for Crankshaft Dynamic Balancing Machine Based on LabVIEW
..... ZENG Qi, SHEN Li-zhong, XU Jin-song, *et al.* (1865)

Communicational Technology

- Research on Independent Component Analysis Based on Particle Swarm Optimization Algorithms ZHANG Wen-xi,
ZHENG Mao(1873)

Computational Technology

- A Hybrid Local Constriction Approach Particle Swarm Optimiza-

- tion for Constrained Engineering Design Problems
..... YU Long-wen, LIU Guo-zhi(1873)

- A Novel Quantum Genetic Algorithm with Application
..... XIAO Hong, SHANG Fu-hua, CAO Mao-jun(1877)

- Research of Fault Diagnosis Based on Rough Neural Network
..... ZHU Xin-yu, ZHENG Bo(1887)

- The Planning and Design of Special Market-orientated Integrated E-business Portal System WU Ying-liang,
CHENG Xing-kai(1887)

- Combining Facial Features and Relevance Vector Machine for Multi-pose Face Detection RUAN Jin-xin,
YIN Jun-xun(1892)

- Comprehensive Research of Naval Vessel Multi-objectives Threat Assessment and Visualization SU Man,
KANG Feng-ju, XIE Pan(1897)

- Dijkstra Algorithm for a Kind of the Degree-constrained Minimum Spanning Tree Problem YUAN Wei-dong(1901)

Traffic and Transportation

- Study on Model of High Speed Railway Wheel Ovalization
... ZHANG Xue-shan, ZHANG Jian, ZHANG Jun(1918)

Aeronautics and Astronautics

- Investion on the Effect of Hovering Height to Helicopter Ship-board Controllability SUN Wen-sheng,
ZHANG Tai-feng(1910)
- Analysis of Bird-strike Resistance for Wing Leading Edge of Aircraft ZHAO Nan, XUE Pu(1914)
- Research on GPS Position Calculation Arithmetic
..... YAO Chang-hong, CHAI Jun-shuan(1918)

Managemental Science

- Principal-agent Theory Analysis of the Taxation Corruption in China HAO Wen-juan(1924)
- Comparison of Monte Carlo Simulation and Quasi-Monte Carlo Simulation in Option Pricing MU Kuang-ning(1933)

Research Notes

Mathematics

- The Amplitude Equations of an Epidemic Model
..... LIU Hou-ye, WANG Wei-ming(1933)

- Weakly- α - I -continuous Functions LIU Shi-qin(1935)

- Modified Formula for Trapezoid Method and the Asymptotic Property of the "Mid-point" of Its Remainder
..... HE Jun-hong(1939)

Physics

Discuss for Self Reappearance Module Function of Circle Plane Mirror Concavity YE Yong-wei, SHAO A-hong(1943)

Chemistry

Synthesis, Crystal Structure, Fluorescent Property and Dissociation Equilibrium Constant of 1-(carboxymethyl)-1,3-benzimidazol-3-ium-3-acetate SHENGDAN Miao-tian, WU Xiao-lian, HUANG Ling(1954)

Earth Science

Accelerating Coherent De-dispersion Using the CUDA-enabled GPU LIU Dong-liang, Paul Demorest, NAN Ren-dong(1950)

Medicine

The Effect of Leukocyte-depleted before Blood Preservation on Blood Quality and RBC Preservation CHEN Xin, YU Yang, MA Chun-ya, *et al.* (1954)
A Study of Relationship between Fecal Lactoferrin and Inflammatory Bowl Disease WANG Zhi-hong, GUO Han-bin, CAO Jian-biao, *et al.* (1958)

Mining Technology

Study on the Process for Improving Metallurgical Quality of D2 GUO Shu-juan, CAO Jun, WANG Jun, *et al.* (1961)

Petroleum Industry Technology

Viscosity Reduction Capability of Lignin to Polyacrylamide FAN Zhen-zhong, ZHOU Yang, HAN Fei, *et al.* (1968)
Optimum Selection of Grain Diameter of Plugging Material Based on Fractal Gradation Theory in Microannulus between Casing and Cement Sheath of Gas Well JIN Chun-yu, WANG Yu(1968)
The Judged Discard Detection Technology of Sucker Rod ZHAO Ying-zhi(1980)

Instrumental Technology

Cavitations Simulation and Visualization Research of Water Hydraulic Poppet Valve YANG He-mei, CHEN Yun-fu(1975)

Power Technology

CFD Analysis of Cooling Jacket in New Type of Horizontal Diesel Engine CHEN Zhi-e, BI Yu-hua, LEI Ji-lin, *et al.* (1980)

Communicational Technology

Optimization of the Coupling Matrix for Generalized Chebyshev Filter CHEN Jun-ji, ZHANG Bao-ping(1984)
Design of a Bipolar LDO Linear Regulator BAI Huan-li, LING Wen-sheng, JIANG Hong-yu, *et al.* (1988)

Computational Technology

Application of Developmental learning to Basic Action of Soccer Robot ZHU Zhi-hua(1992)
Design of Distributed Control Energy-saving System Based on Ambient Light Compensation XIAO Qian-hong, XU Lun-hui(1995)
Fault Diagnosis of Analog Circuit Based on Wavelet Packet Analysis and RBF Neural Network LIN Mei-qin, CHEN Yan-feng(1998)
The Application of Improved Genetic Algorithm in Test Paper Automatic Composing HUANG Xiao-ming, LIU Chang-an(2006)
Inquiry Software Development of Technologic Measures of Oil-water Well ZHANG Wen, XUE Qing-ping, WANG Qing-ping(2006)
An Improved Eclat Algorithm LIU Jing-lian(2009)
Research of Asynchronous Data Access Method in Browser/Server Model Network Based on .NET LI Zhi-wu, SU Jin-zhi(2015)
S3C2410 Embedded System Design of Multi-port Serial Communication MA Xiu-jun, LI Yong, SNU Shi-ming(2015)
Research of Detection of Moving Objects Based on Gaussian Mixture Background Model WANG Fei, XIE Qin-lan(2018)
Study and Error Analysis on Read-time B-spline Curves Interpolation PU Yan-min(2021)

Architectural Technology

Time-history Analysis of Skip-floor Shear Wall Structure HAO Jin-feng, HE Jin-zhou(2027)

Traffic and Transportation

Research on Highway Network Adaptability in Guangdong Province ZHANG Quan, ZHAO Jin-feng, WEN Hui-ying(2030)

Aeronautics and Astronautics

Research on Computational Method of Wall Interference and Correction in Wind Tunnel Experiment GAO Yong-wei, LUO Kai, MA Yu-qing(2038)
Calibration of Laser Strapdown IMU Based on Four Position Turning Method HU Xin, HAN Chong-wei, LI Wei, *et al.* (2038)

Managemental Science

The Efficiency of Chinese Capital Market; Empirical Research Based on RAT Test MING Kai, WU Yan-ni(2042)
