Papers

Mathematics

- Asymptotic Behavior of the Competition Model in the Unstirred Chemostat LI Hai-xia(1659)
- Dynamic Analysis of a Predator-prey System with IPM
..... ZHA Shu-ling(1663)
- Sheaf Paracompact Sets in LF Cloure Spaces
..... SUN Jun-na(1672)
- Information Fusion Indentification of Mutisensor ARMA Model with Colored Measurement Noise LI Heng, DENG Zi-li(1672)
- Reliability Centered Route Optimization in Multistate “s-t” Network BAI Guang-han, ZHANG Tao, GUO Bo(1677)

Geology

- The Characters of Lsland Coalescence During the Magnetoshere Substorm LU Xing-qiang, LI Ke-hua(1685)

General Industry Technology

- Shape Optimization of Holes on Thin-walled Curved Composite Structures ... ZHANG Jin,WANG Dan,ZHANG Wei-hong(1685)

Petronium Industry Technology

- The Research on Residual Oil Distribution after Polymer Flooding Based on Three-dimensional Network Model
..... LI Xia-ning, ZHANG Jiu-ran, ZHANG Wei(1690)
- A Study of Reducing Heat Loss of Thermal Recovery Wellbore by Gravity Heatpipe Technology through Absorbing Geothermal Energy LI Long,LI Chun-sheng,ZHU Lan(1704)
- The Numerical Calculation of the Unsteady Flow of the Polymer Aqueous Solution-base Foam through Porous Media
... YANG Li-guo, XUAN Yang, CUI Hai-qing, *et al.* (1699)

Mining Technology

- The Study of Hyperspectral Technology Appling in Supervision of one Mine in Gansu Province YANG Yan-jie,
ZHAO Ying-jun(1704)
- Pre-cooling Isothermal Annealing Process Affect on the Micro-structure and Properties of Cr12 Mold Steel
..... GUO Shu-juan,CAI Li-juan(1708)
- Optimotion of the Die Geometry in the Aluminum Alloy Wire Drawing Process SUN Xiao-qiao, DENG Chang-shen(1721)

Communicational Technology

- Designing Low-Sidelobe Phased Array through Multi_level Density Weight LIU Chang, GUO Chen-jiang,
DU Jian-chun, *et al.* (1716)
- An Accuracy Improved Signal Acquisition Algorithm Based on Short Time Matched Filter and FFT ... ZHANG Chuan-sheng,
YANG Ying, HE Lu, *et al.* (1721)
- Design and Realization of a Bluetooth—Based Advertisement Transmission System NI Xiao-jun,
ZHENG Long,ZHANG Zhi-cheng, *et al.* (1727)

Computational Technology

- Guaranteed Cost Control for a Class of Uncertain Nonlinear Systems with Time-delay HAO Ning-mei, ZHANG Yong(1732)
- Inverse Kinematics Analysis of A Humanoid Robot
..... HAN Zhi-xin, YAN Lei , REN Yan-hong (1736)
- Robust H_∞ State Feedback Controllers of Discrete LPV Repetitive Processes LI Yan-hui, LIU Ya-zhe,
JIANG Yin-ling, *et al.* (1745)

Chemical Industry Technology

- Application of Soxhlet Extraction in the Composition Analysis of Industrial Petroleum Sulfonates NIU Rui-xia,
LONG Biao, LI Bolin(1744)

Traffic and Transpotation

- Study of Traffic Flow Adjustment Methods to Congestion Area Based on TransModeler YANG Hui,
CHENG Wei,XIAO Hai-cheng, *et al.* (1761)
- Study on Traffic Sign Recognition Based on Support Vector Machine CHEN Xing,JIA Yin-shan(1754)

Aeronautics and Astronautics

- Flight Control of Receiver Aircraft in Probe and Drogue Aerial Refueling LIU Zhao, YUAN Suo-zhong, ZHOU Chun-hua(1761)

Management Science

- Product Feature Usability Evaluation trough Partial Square Regression LIU Pan, WANG Li-ya(1765)

Research Notes

Mathematics

- Mixed Volume Element Method of Two-dimensional Nonlinear

- Pseudo-parabolic Equation ... GU En-guo, YANG Qing(1772)
 Research on the Shortest Quadratic Spline Interpolation
 CHEN Gang, GAO Shang(1772)

Physics

- The Growth and Magnetic Properties of MnBi Alloys
 HU Ping, YIN Lan(1775)

Petroleum Industry Technology

- Oil Source and Migration Pathway Simulation of Fuyu Oil Layer
 in Chaoyanggou Oil Field ... ZHAO Rong, QI Shu-jiu(1779)
 Research Effects of Prophase Using of Efficient Wells on EOR
 ... ZHANG Ji-hong, JIN Lu, GUAN Yu, *et al.* (1782)
 Studying of Scaling Method of Containing Reservoir Heterogeneity
 YU Sheng-yun(1790)
 A New Steam Injection Method of Horizontal Well for Heavy Oil
 LIU Peng(1789)
 Technology of Computer Simulation to Prevent Produced Water
 form Draining in Oil Field ZHANG Rui-jie,
 HE Fu-yun, CHANG Zhong-wei, *et al.* (1794)
 Prediction and Inhibition of Hydrate Formation in Condensate Gas
 Pipeline WEI Li-xin, XU Yan-chun, WU Di, *et al.* (1806)

Instrumental Technology

- New Nano-composite Ceramic Materials in Water Proportional
 Relief Valve, and Research on the Application
 XU Wen-zhen(1801)
 Design of Broadband Phase Measuring System Based on ADuC128
 Microprocessor DUAN Zhi-wei, TONG Zi-quan(1806)

Computational Technology

- Study on the Coupling Performances of the Wireless Transmission
 System of the MEMS Indise Human Body LIU Xiu-quan,
 LI Yan-hong, XUE Kai-feng, *et al.* (1812)
 Robust H_2/H_∞ Control of Uncertain Neutral Jumping Systems
 with Discrete and Distributed delays
 LI Yan-hui, JIANG Bei-yan, LI Fei(1817)
 Multiple Image Encryption Technology Based on Logistic Map-
 ping WANG Lin-juan(1827)
 The Flexible Design Approach for Water Information Systems Based
 on Software Reuse NI Xiao-jun, ZHENG Long(1827)
 Driver Fatigue Detection Based on SVM ... WANG Zhen-hua,
 JIA Yin-shan, CHEN Xing(1832)
 A New Distance Color Difference Formula in RGB Color Space
 ... DUN Shao-kun, WEI Hai-ping, SUN Ming-zhu(1836)

- A Enhanced Wireless TCP Performance Scheme Based on Neural
 Network LIU Jun(1843)

Chemical Industry Technology

- A Synthesis Method of 2-methyl-3-Amino-5-nitropyridine
 ... HU Yang, JIN Yun-zhou, XIONG Ya-ping, *et al.* (1843)

Building Technology

- The Effect Analysis of Double-tower Connected Structure on the
 Wind Load TENG Zhen-chao, HE Jin-zhou(1850)
 Application and Quality Control of Long Screw Auger Taking
 Clay and Static Pressuring Pile Construction Technology
 DENG Juan-juan, WANG Dong, SHEN Jian-ming(1850)

Traffic and Transpotation

- Study of Temperature Effect of Continuous Rigid Frame Bridge at
 Cantilever Construction Stage LUO Jian-fei(1854)
 The Modal Experiment and Finite Element Model Updating for the
 Tower of a Cable-stayed Bridge ZHONG Wen-fei(1858)
 The Internal Force Influence on the 20 m T-beams of the Straight
 Fabrication of Curved Bridge LI Chong-wei,
 NING Xiao-jun, JIANG Huai(1867)
 Speed Distribution Characteristic on Urban Underground Roads
 YANG Yang, LI Kun-ying, ZHU Ming-xuan(1867)
 Study on the Method of Reversible Approach Guidance at the Sig-
 nalized Intersection Base on PARAMICS ... ZHANG Dong-ming,
 CHENG Wei, PAN Yun-wei, *et al.* (1871)
 Analysis of Passenger Travel characters under Intercity Railway—
 Kunming to Qujing as an example DUAN Li-zhen(1880)

Aeronautics and Astronautics

- A Study on the Available Power of Propeller-driven Small UAV
 ZHANG Yi(1880)

Environmental Science

- Numerical Simulation on Wind Environment of Oil Tank Group
 Based on CFD JIA Ming-yan(1883)

Management Science

- Combination Evaluation on Technology Adaptation of Artificial Lift Ways
 ... YIN Zhi-hong, LI Da-peng, GONG Yan-fen, *et al.* (1887)
 Based on Power Generation Enterprise Material Management and
 E-commerce Purchasing Platform Research and Development
 LIU Zheng, YE Bai-long, LU Lan(1896)
 Research on the Correlation between Annual Earning Prean-
 nouncements with Insider Trading ... XIAO Wen-liang(1896)
