Papers

Physics

Attenuation Effects of Electromagnetic Wave in Non-uniform Plasma
..... CHEN Mao-lin, MAO Gen-wang, XIA Guang-qing (4127)

Biology

Construction of Stable Cell Line Enables Expression of CUEDC2 to be Regulated by Tet-off Inducing Expression System
..... XU Jin-jing, WANG Yu-bo, WANG Qian-yi, *et al.* (4131)

Construction and Expression of CUEDC2 Mutants in BL21 (DE3) and Sf9 Cells
..... WANG Yu-bo, GAO Yan-fei, LI Teng, *et al.* (4138)

The Inhibition of TNF α -induced NF- κ B Transcriptional Activity by AWP1
..... MU Rui, GAO Yan-fei, CHEN Liang, *et al.* (4138)

Medicine

Scanning Electron Microscopic Observation of Three-dimensional Conformal Radiation Therapy of Canine with Spontaneous Benign Prostatic Hyperplasia
..... ZHAO Pin-ting, LU Shao-ping, LIANG Jun (4142)

General Industry Technology

A Vision-based Real-time Detection Method of Texture in Automatic Composite Fiber Placement
..... CHEN Wen, CAO Li, XIAO Jun, *et al.* (4149)

Motion Parameter Measurement of Aircraft in Landing Process Based on Digitl Images
..... ZHANG Jian-hua, DANG Xiao-bao, DI Xing (4160)

Petroleum Industry Technology

Study on Volcanic Facies of Haerjiawu Formation in Malang Sag
ZHANG Hui, LIU Cheng-zhi, YU Hai-shan, *et al.* (4160)

The Sequence Characteristics and Sedimentary Facies of the Second Member of Nantun Formation in Urxun Sag
..... ZHAO Ye, LIU Cheng-zhi, HU Zhen-hua, *et al.* (4165)

Research of Early Productivity Distinction and Effect Factors about Volcanic Gas Reservoir
..... SUN Yang-bin, SHAO Rui (4169)

The Depositional Model of Large Scale Overlap Channels—Taking Putaohua reservoir of north Saertu oilfield for example
..... WEN Hui-jian, YANG Cheng, MA Shi-zhong (4185)

Preparation and Evaluation of the Flake-type ZnO Super-fine Particles for Drilling Fluids
..... CAO Xiao-chun, WANG Jing, LIU Xian-hong, *et al.* (4178)

The Influence Research on Glue Layer Thickness of Adhering Sand Casing to the Relatively Sound Intensity
..... QIAN Li-yan, SUI Yang, QU Jian-fang (4181)

Fault Modeling Method with Well-to-seismic Integration Used in the North II West Tract of Saertu North Area
..... LI Yan-li, LIU Cheng-zhi, WANG Wen-guang, *et al.* (4185)

Practice and Cognition of Improving the Employ Thickness of the

Thin and Poor Reservoir LI Bing (4189)
Numerical Simulation of Heating System of Crude Oil Storage Tank Based on Solar Energy YIN Song (4193)

Mining Technology

Microstructure and Properties of Hot Pressing Bonding on Be/HR—1 Stainless Steel with AgCu28 as Interlayer LI Hui, KANG Ren-mu, ZHOU Shang-qi, *et al.* (4197)

Instrumental Technology

Motion Analysis and Optimization Design of Geneva Mechanism
..... ZHANG Lei, ZHAO Peng-bing (4202)

Multiscale Analysis on Sliding Contacts of Textured Surfaces
..... HAN Bing-hai (4206)

Power Technology

Design of Temperature Control System Based on Self-turning Fuzzy PID Combining DSP GAO Feng, JI Chang-ying, WANG Hai-qing, *et al.* (4214)

Electro-Mechanical Technology

An Inverter PLL Application Research in Constant Water Supply
..... LIU Jie, PANG Ke-wang (4214)

Communicational Technology

An Improved Method of MFCC Parameter Extraction in Speaker Recognition HE Zhao-xia, PAN Ping (4227)

The Adaptive Auto Regressive Model for Nonlinear Traffic Load Forecasting
..... XU Xing, XU Sheng, WANG Wei-xing, *et al.* (4222)

Computational Technology

Research of Data Integration Based on Data Elements
..... SHI Gui-ying, WEN Bi-long, WANG Zhi-bao (4227)

Based on Linear CCD Wire Diameter Measurements System Design LI Tao, ZHOU Yun-fei (4231)

Non-structural P2P Auto Search Mechanism Based on Peer Interests ZHAO Xin-hui (4236)

Based on Watershed Transform and Fuzzy C Means Clustering Algorithm for Color Image Segmentation YANG Ji-long, WANG Qing-xin, HU Feng-fa (4239)

The Research of Model Data Conversion in Virtual Assembly System YANG Ping, LI Lei-lei (4248)

Application of Full Range Nonlinear Analysis Method to Simulation for Bearing Capacity of ZJ70D Rig Derrick ... GUO Jin-yu (4248)

Architectural Technology

Site Suitability Evaluation of Xingang Wind-power Booster Station in Shanwei ... FENG Tao, LIU Ming, QIAN Xin, *et al.* (4253)

Study on Effect of Assessment of Seismic Performance Affected by Concrete Material Constitutive Relationships
..... YUAN Quan, YANG Nian-xiang (4272)

Reliability Analysis of Steel Tubular Scaffold XIAO Yi, WANG Dong, LIAO Zhong-yong, *et al.* (4261)

Traffic and Transpotation

- Computation and Analysis of Temperature Field on the Extra-long Highway Tunnelin High Attitude and Cold Zones
..... LIU Yu-yong, WU Jian, ZHENG Bo, *et al.* (4267)
- Design of Movement State Monitoring System of Wheel Based on Intelligent Sensor ZHANG Jian-wei,
LIU Gui-xiong, PAN Meng-yao (4272)
- The Mixed Setting of the Parapets and the Sight Delineation Facilities for the Rural Highway in the High Mountain Area
..... WANG Zuo, FEI Wei-shui (4297)

Aeronautics and Astronautics

- Multi-objective Optimization Design of Aerofoil Based on Isight
HOU Liang-xue, ZHANG Yu, WANG Xing, *et al.* (4281)
- Start Design Coupled with Mass Bleed of Mixed-compression Supersonic Inlets KONG Xiao-jun, YANG Tie-cheng,
GU Liang-xian, *et al.* (4285)

Managemental Science

- The Co-integration Analysis Based on Error Correction Model of the Level of Consumption and GDP of Hubei
..... HU Shu, GAN Xiao-rong (4290)
- Research of Reverse Supply Chain Recovery Based on Transshipment Cooperative Game Model
..... WU Xu, WANG Li-ya (4297)

Research Notes

Mathematics

- A Constructing Method for Superabundant Semigroup
..... CAI Nan, KONG De-bin (4299)
- An Equation Involving $S(n)$ and Euler Function
..... CHEN Bin (4312)
- The Discussion on Asymptotic Behavior of Interior Point in Integral Cauchy Mean Value Theorem WU Jian-hua,
SUN Xia-lin, XIONG De-zhi (4304)
- Stability for Impulsive Integro-differential Systems
..... LÜ Zhuo-ying, ZHANG Lai-liang (4307)
- Smoothness of 4-Point Interpolatory Subdivision Schemes
..... SUO Yuan-yuan, OU Ying-hao, XIE Gang (4312)
- The Forecast of Tax Indicators Based on Vector Auto-regression Model JIANG Li, ZHANG Rui-kun (4319)

Mechanics

- Rapid Moment Distribution Method for the Internal Force Calculation of the Structure without Sidesways
..... ZHU Qing-liang, CHEN Yu-ji (4319)

Physics

- The Law of Ionization Energies of Helium-like Ions Based on Relativity Quantum Defect Theory LI Yao-zong,
ZHANG Zhi-xia, LIANG Chang-hui, *et al.* (4323)

Geology

- Rapid Compression Algorithm Based on the No Topological Vec-

tor Curves LI Shuai, FANG Yuan-min, XI Wen-fei (4327)

Medicine

- An Experimental Study on Screening Metal Ion of Zeolite Hemostat LÜ Xiao-xing, CHEN Shao-zong,
LI Xue-yong, *et al.* (4334)

Mining Technology

- Optimization of Middle trough Baffle Ledge Based on ANSYS Workbench ZHAO Jiang-hua, JU Peng,
CHEN Ling-guo (4334)
- Analysis of Gantry Drilling Base Weldment WANG Hong,
CAO Ji-wu, GAO Hong-xing, *et al.* (4337)
- Research and Design of Frog Working Manipulator
..... WANG Hong, GAO Hong-xing, CAO Ji-wu (4340)

Petroleum Industry Technology

- Study of Reservoir-forming Mode in Dukouhe
..... REN Chao-fa (4376)
- Stratigraphic Model of the Putaohua Oil Layer in Sanzhao Sag
..... CAO Hai-tao (4346)
- Relationships between Volcanic Activity and Hydrocarbon Accumulation in Carboniferous Malang Sag of Santanghu Basin
..... LOU Lu, LIU Cheng-zhi (4350)
- The Division of Flow Unit of Yushulin Oilfield
..... LI Chang-guo (4354)
- CBM Exploration Prospects of Heilongjiang Province: Taking the Case of Jixi Basin and Boli Basin as Examples
..... LI Ting-ting, XU Chen-wu, HU Hui-ting (4359)
- Experimental Study of Dropping Water in Gas Drive to Influence Filtrational Resistance TANG Xu-ping, HAN Fei,
ZHANG Tao, *et al.* (4362)
- Anlysis on the Influence of Non-homogeneous Pay Flooding Level to Oilfield Development ZHOU Gui-zhen (4365)
- Research on the Low-temperature Emulsion Breaking Technology in Chaoyanggou Oilfield WANG Yu-min (4371)
- Study on Yield Behavior of Water-in-oil Emulsions of Waxy Crude Oil GUO Li-ping, WANG Lei, SONG Yu-bo (4376)

Computational Technology

- Research on Electro-hydraulic Servo Control System
..... LI Bing-cai, ZHANG Rong (4379)
- An Improved FP-Growth Algorithm Based on Database User Behavior Analysis ZHOU Yun-xia, LI Lei (4383)
- The Numerical Simulation of the Signs Stem under the Action Seismic Forces ZHAO Yan-ping, QU Ben-ning (4387)

Chemical Industry Technology

- Preparation of Primary Dialkyl 1-Aminoaryl methylphosphonate
..... XU Xuan, YANG Ri-fang, LIU Ying, *et al.* (4394)

Architectural Technology

- Study of Waste Arubber Powder and Polypropylene Fiber Hybrid Concrete Performance ZHANG Xue-hua (4394)
